Dear visitor,

Welcome to our Oege site. As a hot rolling operation, we work with hot and heavy materials (steel coils). We care about your safety, so we would like to take this opportunity to draw your attention to a few points. Please read through them and act accordingly while you are here.

1. Registration

When you arrive, please report immediately to the plant safety department and wait until your contact comes to meet you. For safety reasons, third parties are not allowed to enter the site unaccompanied.

2. Visitor/contractor pass

Please wear the high-visibility vest and attach the visitor pass you are given prominently so that everyone can see that you are entitled to be on site. These items must be handed in again when leaving the site.

3. General health and safety regulations

Protect yourself and our employees by observing our health and safety regulations. Please wear the required personal protective equipment such as safety helmets, protective footwear, ear protectors, etc. and keep to the marked visitor paths. Should you be visiting our site as part of a group, please stay together. The carrying and consumption of alcohol and other stimulants is strictly forbidden in all areas. Please follow the instructions provided by your guide.

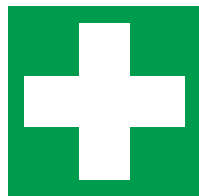

4. Material, transportation & traffic

Movements by forklifts, cranes, rail vehicles and trucks are commonplace on site. Rail vehicles have priority. German road traffic regulations (StVO) apply throughout. Lights must be kept switched on. Please remain alert, heed the warning signs and follow the instructions of your guide.

5. Health risks

As we also work with magnetic cranes, anyone with a pacemaker or other implanted device should avoid the marked areas.

6. First aid – medical service

The number for our medical service is **22 77**.

7. Accident and fire

Emergency calls
 from a plant telephone 112
 from a mobile telephone 023 34 – 91 112

To minimize fire risks, smoking is prohibited throughout our site except for marked smoking areas.

8. Photography

Taking photos with any device (including mobiles) is prohibited in all areas..

9. Cleanliness

Please dispose of any waste in the receptacles provided.

10. Liability for soiling and damage

Our production operations involve the use of oil, grease, lubricants, etc. We therefore cannot accept any liability for soiling or damage.

11. Theft

Please do not leave any valuables visible in your car or visible and unattended on the site as we cannot accept any liability for theft.

12. Escape routes

Please familiarize yourself with the escape route plans displayed on the premises. In the event of danger, please use the signposted escape routes and follow the instructions of your guide.

13. Departure

At the end of your visit and when leaving the site, please inform your guide and sign off with the plant safety department.
